

Spiritual Digital Platform

Application Requirement & Development Specification (Version 1.0)

Page 1 – Project Overview & Solution Architecture

Project Name

Integrated Spiritual Digital Platform

Project Objective

The objective is to build a complete digital ecosystem for a spiritual organization where devotees can connect, learn, meditate, participate in events, interact with mentors, donate, volunteer, and track their spiritual growth through Artificial Intelligence.

Unlike existing applications, this platform will focus on **personalized spiritual transformation** using AI and user behavior analytics.

The platform will be available on:

- Responsive Website
 - Android Mobile Application
 - iOS Mobile Application
 - Admin Web Portal
-

Technology Stack

Component	Technology
Frontend Web	React JS
Mobile App	React Native
Backend APIs	NodeJS (ExpressJS)
Database	MySQL
Authentication	JWT + OTP
Notifications	Firebase Cloud Messaging
Storage	AWS S3
AI Services	OpenAI / Gemini APIs
Hosting	AWS Cloud
Video Streaming	Vimeo / AWS Media Services
Payment Gateway	Razorpay / Stripe

User Roles

1. Guest User

- Browse website
 - Read articles
 - View Events
 - Watch free videos
 - Register
-

2. Registered User

- Personalized Dashboard
 - Meditation
 - Courses
 - Mood Tracking
 - AI Chatbot
 - Donate
 - Join Events
 - Community
 - Daily Spiritual Tasks
-

3. Mentor

- Create Courses

- Schedule Sessions
- Reply Community Questions
- Upload Meditation Content

4. Admin

Complete Platform Control

- User Management
- Event Management
- Donation Reports
- Content Management
- AI Monitoring
- Analytics
- Notification Management

Core Vision

The application should not simply display content.

It should become a **Digital Spiritual Companion** that understands users emotionally and spiritually.

Page 2 – Mobile Application Functional Requirements

1. Authentication Module

Features

- Mobile OTP Login
 - Email Login
 - Google Login
 - Apple Login
 - Forgot Password
 - Multi Device Login
 - Session Management
-

2. Home Dashboard

Dynamic personalized dashboard.

Widgets

- Today's Spiritual Quote
- Daily Meditation
- Upcoming Events
- Recommended Course
- Mood Status
- Today's Challenge
- Recent Activity
- Guru's Message
- Prayer Reminder

3. Meditation Module

Categories

- Beginner
 - Intermediate
 - Advanced
 - Sleep Meditation
 - Chakra Healing
 - Mindfulness
 - Breathwork
 - Mantra Meditation
 - Sound Healing
- (There are other options too but start with this)

Each meditation contains

- Audio
- Video
- Duration
- Difficulty
- Progress
- Benefits
- Bookmark

4. AI Meditation Recommendation

Based on

- User mood
- Previous meditation
- Stress level
- Sleep quality
- Time available

Example

User feeling anxious

↓

AI recommends

- 10 Minute Breath Meditation
- Anxiety Healing Music
- Positive Affirmation

5. Daily Sadhana

Checklist

Morning Prayer

Meditation

Reading

Gratitude Journal

Evening Reflection

Water Intake

Yoga

Sleep Tracking

Progress Score

Spiritual Streak

Daily completion increases streak.

AI Spiritual Guide (Chatbot)

Unlike generic chatbots, this assistant acts as a spiritual companion.

Capabilities

- Answer spiritual questions
- Recommend meditation
- Explain scriptures
- Suggest breathing exercises
- Guide beginners
- Answer FAQs
- Event assistance
- Daily motivation
- Personalized affirmations

Example Questions

"I feel anxious."

↓

AI Response

"It seems your mind is overactive today. Try a 12-minute calming breath meditation followed by Om chanting."

Mood Tracking

Daily Mood Check
